SUMMER GRILLING RECIPES

Evo Grilled Angel Food Cake with Summer Berries

Ingredients:

- 1 Angel Food Cake (homemade/box brand is best), baked & sliced into wedges
- 2-3 cup fresh Berries (slice Strawberries, halve Blackberries, whole Raspberries & Blueberries)
- 2 tablespoon Sugar
- 1 tablespoon aged Balsamic Vinegar
- Whipped Cream

Method:

Place berries, sugar & balsamic in a bowl. Gently toss and set aside. Preheat grill and place sliced cake slices directly on the Evo grill surface. Check for doneness after one minute. If nicely browned, flip to the other side. Let cool slightly and top with fresh berries & whipped cream.

**You can make this on your standard bbq grill as well. Have grill set on low, place the cut cake directly on grill grates. Check after a few seconds to make sure the cake doesn't burn. Flip and repeat on other side.
